MOBILE PHONE MONITORING SOFTWARE:

Download Mobile Phone Monitoring software directly onto a mobile phone and receive copies of all SMS, Call Logs, Emails & GPS Locations (via Google Maps) within minutes of purchase.

Mobile Phone Monitoring Software FEATURE LIST:

- SIM Change Notification (Receive SMS when SIM is changed)
- GPS Tracking (the software uses Google Maps to show you the phone's location)
- SMS Logging (Read the contents of all incoming and outgoing SMS messages)
- Call History (View their entire call history, both incoming and outgoing calls)
- EMAIL Logging (See complete emails sent to and from the mobile)
- 100% Completely undetectable
- After installation you can control every aspect of the Mobile Phone Monitoring Software operation by sending undetectable SMS commands using our free remote control software
- Mobile Phone Monitoring Software is available for Windows Mobiles, Blackberries and Series 60 Phones which include Nokia, LG and Samsung.
- Software lasts for 12 months, after which you can simply renew your subscription

WHAT IS MOBILE PHONE MONITORING:

Mobile Phone Monitoring is software that you install on a mobile phone. After installation, Mobile Phone Monitoring secretly records events that happen on the phone and delivers this information to a web account, where you can view these reports 24/7 from any Internet enabled computer or mobile phone.

WHAT INFORMATION IS RECORDED:

Mobile Phone Monitoring Software captures the contents of all SMS and email messages, the details of phone call records (number, time, and duration) and the name assigned to the number in the phones address book. If you have a phone equipped with GPS, (most current phones have this ability) then you can also receive the GPS coordinates and view the phone's actual location via Google Maps!

WHAT PHONES ARE SUPPORTED:

Mobile Phone Monitoring Software is available for Series 60 (Nokia, LG & Samsung), Blackberry and Windows mobile devices. Just email us for a comprehensive list of supported phones.

ALL MOBILE PHONE MONITORING SOFTWARE PRODUCTS ARE SIMPLE TO INSTALL:

Installation is simple and does not require any cables or computers. Within minutes of purchase, you can download and install Mobile Phone Monitoring Software directly into your mobile phone. The installation process takes about 1-2 minutes, and you can start receiving your activity reports within seconds.

SPOUSEBUSTERS
unlocking the truth

ALL MOBILE PHONE MONITORING SOFTWARE PRODUCTS HAVE REMOTE CONTROL:

Immediately after the installation all the Spyphone features can be controlled by sending undetectable SMS commands. You can start, stop, and change all the Spyphone settings without ever touching the phone!

ALL MOBILE PHONE MONITORING SOFTWARE PRODUCTS ARE EASY TO USE:

To see your reports, login to your account using any internet connected computer or mobile phone. Your Spyphone web account gives you a wonderful easy to use interface, and offers you powerful search and reporting features available. Get the answers you need by searching any event across a date range for keywords. When you find what you are looking for, simply download the reports in your choice of format (PDF, CSV, RTF) for historical reference.
